AGENCIES:

S. M. Pettengill & Co., 10 State Street, Boston, are authorized Agents for receiving Advertisements and Subscriptions for this paper.

Office in Scollay's Building, Court-st.

Subscribers must in all cases be paid up to the time they wish their papers discontinued.

Subscribers finding that no name which they understand that the time for which they have paid has nearly expired, can know when their subscription expires.

The Law Regulating Newspapers and Periodicals.

1. Any person who may not give express notice to the contrary is considered as wishing to continue his subscription.

2. If subscribers order the discontinuance of their papers the publisher may continue to send them until all arrearages are paid, the subscribers are responsible for the payment.

3. If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bills, and ordered their papers discontinued.

4. The Courts have decided that a refusal to take newspapers or periodicals from the Post Office with intent to defraud the publisher, or the neglect of all such papers, is prima facie evidence of fraud.

5. In suits to recover payments for newspapers or periodicals, it is not necessary to prove the precise amount due, but only to show that a certain amount is due, and that the defendant has refused or neglected to pay the same.

**CURE FOR PIN WORMS**

DR. H. G. GOUDD'S

**PIN-WORM SYRUP**

IS the first and only remedy ever offered to the public for the effectual removal of the Ascarides, or Pin Worms, from the human system. The high reputation it has established in the last two years and the fact that it is fast superseding all other worm remedies, is the best test of its great merit.

Immediate Relief in twenty-four hours, and a Permanent Entire Cure is Warranted

when taken according to directions, which accompany each bottle.

This Syrup is also a most valuable family cathartic, to be always used when physic is required, especially for children. It corrects the secretions, gives tone to the stomach and bowels, assisting nature in her efforts to restore health. It is purely a Vegetable Extract, and always safe and reliable.

Sold by HALL & RUCKEL 218 Greenwich Street, New York; in Boston by GEO. C. GOODWIN & CO. 18 Marshall street, and other Wholesale Druggists. At Retail by B. F. Bradbury, W. L. Alden, T. B. Hadley, J. O. Trask, Bangor. 1m[illegible] dec8

**WARREN'S COUGH BALSAM**

Has been found, by experience, to be the Best Remedy for the various Diseases of the Lungs and Throat, such as

**Diphtheria,**

Asthma, Bronchitis, Consumption, Croup, In some Pleurisy, Pneumonia or Inflammation of the Lungs, and Whooping Cough.

"In these complaints the medicine has NO SUPERIOR, and while the ingredients it is perfectly HARMLESS to administer to persons of all ages.

At all times of the year this Balsam is found useful especially in the Autumn, Winter and Spring; and many Colds and Coughs which, if neglected, might prove fatal, may be CURED at once by a few doses of this invaluable remedy.

This Cough Balsam possesses the two fold advantage of being at once salutary in curing and insensible as a preventive of the diseases of the Throat, Lungs and Bronchia.

In DIPHTHERIA this Balsam has proved itself unexpectedly efficacious. When given at the first symptoms of the disease it checks it at once; and in many cases is better than any known to have saved their lives.

In ASTHMA, however violent and distressing this Balsam gives prompt relief.

In BRONCHITIS and PNEUMONIA it relieves the irritation, loosens the cough, and promotes a speedy restoration.

In CROUP its powers are almost magical. The most violent cases, coming on daily "like a thief in the night," can be speedily and effectually arrested by a few doses of this Balsam.

In WHOOPING COUGH it moderates the paroxysms, prevents the disease from assuming its severest and most dangerous form, and shortens its course.

Every family should keep it in the house, and thus avoid the dangers of delay connected by sending out for the medicine when needed for immediate use.

The best recommendation for a good medicine is found in its use. I, the following certificates from those who have used it, have not the confidence in it, try one bottle for yourself, and you will be convinced. ☞ It will cost you but twenty-five cents, and may save you as many dollars in time and doctors' bills.

Letter from Col. Roberts.

FRIEND WARREN:—Allow me to thank you for the powerful supply of Cough Balsam received by me from you, through Lieut. Bowden. Many a soldier in my command, as well as officer, has experienced the beneficial effect of the same. We all pronounce it a noble remedy—[signed] our Brigade Surgeon, Dr. Lyman, of Boston, to whom I presented a bottle.

Col. Commanding 2d Regt. Me. Vols.

**MAIZENA,**

The food and luxury of the age, without a single fault. One trial will convince the most skeptical. Makes Pudding, Cakes, Custards, Blanc Mange, &c. without lard, eggs, with few or no eggs, at a cost astonishing the most economical. A slight addition to ordinary wheat flour greatly improves Bread and Cake. It is also excellent for thickening sweet sauces, gravies for fish and meat, soups, &c. For Ice Cream nothing can compare with it. A little boiled in milk will produce rich cream for coffee, chocolate, tea, &c.

Put up in one pound packages, with directions.

A most delicious article for children and invalids of all ages. For sale by Grocers and Druggists everywhere.

**ILLUSTRATED**

**SCIENTIFIC AMERICAN,**

The Best Mechanical Paper in the World.

EIGHTEENTH YEAR.

Volume VIII. - - - New Series.

A NEW VOLUME of this popular Journal commences on the first of January. It is published weekly and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

To the Mechanic and Manufacturer.

No person engaged in any of the mechanical or manufacturing pursuits should think of going without the Scientific American. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which can not be found in any other publication.

To the Inventor.

The Scientific American is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the new inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous, thus giving a correct history of the progress of inventions in the country. We are also receiving the Reports of the Scientific Journals of France, Britain, France and Germany, thus placing in our possession all that is transpiring in mechanical science and art in those old countries. We shall continue to transfer to our columns copious extracts from those journals of whatever we may deem of interest to our readers.

A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application.

Messrs. Munn & Co. have acted as Patent Solicitors for more than seventeen years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business.

The charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

Chemists, Arch tects, Millwrights and Farmers.

The Scientific American will be found a most useful Journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked, all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the arts of Millwrights and Millowners will be found in the Scientific American which information they can not possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

TERMS.

To mail subscribers Three Dollars a year, or One Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country.

Western and Canadian money or Post-office stamps taken at par for subscriptions. Canadian subscribers will please remit twenty-five cents extra on each year's subscription to prepay postage.

The object of this Association is to prosecute and collect, with fidelity and despatch, the various claims of our Soldiers and Sailors, and their legal heirs or representatives upon the Government, arising out of the present war, at a cost simply covering the expenses of doing the business.

No person connected with the Association is to receive any compensation for his services, except the Attorneys and Claim Agents as may be found indispensible, who are appointed by the Executive Committee of the Association and removed at its will, and their pay is to be graduated from time to time, nearly to a gratuity as the nature of the case will admit. By this mode it is believed that claimants will be enabled to save at least one half of the salary charged for doing such business.

### Legislature of Maine.

Reported Specially for the Whig and Courier

SENATE

Passed to be engrossed—Resolve in favor of County Law Libraries, (amended by Mr Peters) to act to amend article 22, section 4, chapter 7 relating to rules of construction.

Mr. Wiggin introduced the following order

Ordered, That a joint select committee of three on the part of the Senate, with such as the House may join, be appointed to await upon Major General George B. McClellan, now in Boston, tender to him the hospitalities of the State, and invite him to visit the Capital as the guest of the Legislature

Mr Wiggin said that he presented this order in the hope that it might pass. It was not necessary for him to speak of General McClellan and his services to the country. The country knows him—the world knows him. Now is a most opportune moment to testify our respect for him, whom the Legislature of Maine should delight to honor—whom the country does delight to honor.

The question was put and the order declared passed.

Mr Emerson doubted the vote. He did not wish to honor one to whom no honor is due.

On motion of Mr Wiggin, the Senate ordered the yeas and nays.

Mr Peters moved to lay the order on the table.

Mr Wiggin asked the Senator to withdraw his motion to table. If the order is to pass, there will be some necessary arrangements to be made prior to the reception of our distinguished guest. If it is to be refused a passage, it is as well to have the question settled to-day.

Mr. Peters was willing and would be glad for one to vote for the passage of the order, but it seemed to him that the Senate would not give it a passage, and he thought the record of a refusal to pass it, would not look well on the Journal. It will do them to lay it on the table. It comes up very suddenly and unexpectedly—He presumed the Senator introduced it without consultation, perhaps we had better have time for consideration.

Mr Wiggin said that although it did come in suddenly, he supposed every Senator had already made up his mind how to vote upon this question. He thought the record of a refusal to pass the order would look no worse than that of a vote to lay on the table. Neither will injure any one's feelings. If the Senate intend to refuse to pass it, is it not right that they should put their choice on record? He moved the yeas and nays on the motion to lay on the table. He wanted to know who was and who was not in favor of those who have led our armies on to victory.

The motion was agreed to.

Mr. Woods disliked to be drawn into this discussion, and he had been gratified when the motion was made to lay the order on the table. He did not understand what was contemplated by the Senator who introduced the order. Why does he single out one General? There are others who have been our armies to victory—some from this State, some from other States. Why honor Gen. McClellan alone? The name of one man who had done eminent service throughout the whole war occurred to him—a distinguished son of Massachusetts—Gen. Benjamin F. Butler. If the Senate is anxious to honor Gen. McClellan, he was no less desirous to testify his respect for Gen. Butler, and he wanted time to prepare an amendment including with Gen. McClellan a list of those Generals who have led our armies on to victory.

Mr Wiggin should never hesitate to place his name on record regarding any or all of the Generals in our army. He had no objections to the Senator's adding any and as many names as he pleases. He might put in every General, Colonel, Captain and Lieutenant in the army if he wished. As for Ben Butler, he had known him too long and too well even to vote thanks to him.

The vote was taken on the motion to lay on the table, and carried by Yeas 20, Nays 2, as follows—

Yeas. Messrs. Barrows, Beal, Cram, Emerson, Farwell, Hatch, Jordan, Merrow, J Milliken, D L Milliken, Moore, Peters, Philbrick, Pike, Plummer, Roberts, Stevens, Stewart, White and Woods—20

Nays. Messrs Bee and Wiggin

So the order was tabled

Mr Milliken presented the petition of the proprietors of Mingalow Bridges for a removal of their charter. Referred

Mr Peters presented the petitions of George K Jewett, and another for leave to extend a wharf into tide waters at Bangor; of Charles E Doe and others for annulling or amending the charter of the Mattawamkeag Log Driving Co; of I W Palmer and others for extension of the charter of the Bangor Boom Company. Referred. Mr Peters also presented bill to amend section 3 of chapter 76 of the Revised Statutes relating to levies upon real estate, also bill explanatory of section 5, chapter 116 of Revised Statutes relating to Sheriff's fees. Referred

HOUSE.

Mr. Coffin of Farmington proposed the following order:

Ordered, That the Legislature of Maine hereby extend an invitation to Gen. George B. McClellan to visit the capitol of this State, as the guest of the Legislature, and that a committee of five on the part of the House, with such as the Senate may join, be appointed to inform him of the invitation of the Legislature and to solicit his acceptance of the same

On motion of Mr Kingsbury of Portland, the order was laid on the table.

Mr. Cony of Augusta, by leave, laid on the table the bill authorizing the expenditures of money for war purposes. Referred to the Finance committee.

Read and accepted—An act to legalize the doings of School District No. 4, in the city of Calais, and to authorize said district to raise money for certain purposes; and act to incorporate the Vassalboro Mills Company; an act to authorize the county commissioners of Hancock county to release and certain taxes.

Passed to be engrossed—Resolve to amend a resolve extending the terms of the law for the settlement of the public lands by Volunteers, approved Jan. —, 1862.

Sundry petitions were presented and referred.

Mr. Hopkinson from the Judiciary reported that bill to amend Section 34, Chap 99 of the Revised Statutes, relating to bail, ought not to pass. Accepted.

Adjourned.

The Massachusetts Horticultural Society have purchased the old Montgomery House, in Boston, for $100,000, and will remove the building and erect a new Horticultural Hall of marked beauty on its site, to cost $150,000.

The Canadian Parliament will meet on the 12th of February.

THE SOUTH CAROLINA VOLUNTEERS. It has been repeatedly declared in journals of a certain class at the North, that the object of organizing colored regiment at Port Royal has proved a failure; that the negroes made under the restraints of military discipline, and that very many of the officers of the army, resenting the proposition to place the blacks side by side with the regular, (white) regiments, were resigning and leaving the service. The Port Royal New South, noticing these reports, declares explicitly that they are without foundation, and that, notwithstanding all the efforts of disorganizers to prevent the enlistment of blacks as soldiers, they have flocked gladly to the ranks. The First Regiment South Carolina Volunteers, the paper announces, is fully organized and fit for service, "both officers and men," such it is deficient in arms, and "so far from being a dead weight on the department," as one Northern journal has declared, "it has rendered good service, and thousands of dollars worth of lumber used in the camps of the white regiments, was procured by their efforts alone, though they were but a handful compared with that white troops around them." The South, in its remarks upon this subject, gives the following exhibit of the treatment which the poor blacks too generally receive—

Every obstacle has been thrown in the way of enlistment of negroes; and every effort made by the advocates of slavery, in and out of the army, here and everywhere, to embarrass and degrade the fine raw blacks, inc. render them useless and unhappy. They disobey the women and taunt and jeer at the men, and undertake to ridicule every effort made for their improvement and elevation. * * * To enlist white men at the North, it has been found necessary to stimulate enthusiasm by appeals to patriotism, pride, and finally by large bounties. It was made notorious to enlist in the service of the country, and dishonorable to refuse. But here the case has been very different. The black volunteers have been refused pay, and neglected by the Government; ill treated by its agents and tainted and insulted by its officers and soldiers for daring to wish to fight for their country and their freedom. Recruiting officers have been refused passage on transports in government employ, and when taken on board, recruits have been driven, every comfort and subjected to the abuse of the lowest as well as highest employees of the boat. In short, every way that human ingenuity could invent, has been devised to destroy the confidence of the blacks and create anarchy, confusion and distress among them.

PROPOSED LEGISLATIVE INVITATION TO GEN McCLELLAN. It will be seen by our special Legislative report of yesterday, that the hard-shell Democrats have been endeavoring to make a little party capital by throwing in a resolution of invitation for Gen. McClellan to visit the State, and accept their hospitalities of the Legislature. In the Senate, Mr. Woods very pertinently suggested that the name of Major General Butler be added, doubtless considering that Democratic General to be at least equally worthy of the respect and thanks of the loyal States. The mover, Mr. Wiggin of York, didn't see it in that light, however. He couldn't perceive that Butler had done any service. Under the circumstances, the resolution was tabled—nobody voting against that poor sheep. Wiggin and one of his colleagues. In the House it was also tabled. The party motives for throwing it in are very well understood and without going into the question of McClellan's merits or demerits, we think there was no call for the Legislature to extend any such invitation. Indeed, under the peculiar circumstances of that General's present position, such an ovation would have appeared too much like a flaunt at the General Government.

MAINE HISTORICAL SOCIETY. The annual meeting of this Society was held in the Court House at Augusta, on Thursday last. In the absence of the President, Hon. William Willis, Bishop Burgess of Gardiner, presided. On taking the chair he made some interesting remarks, and among other appropriate duties for the society to perform, he suggested that of perpetuating the names of the gallant sons of Maine, who fall in their country's defence! Letters and papers of much interest were read, communicated by Dr. True of Brunswick, Hon. E. L. Hamlin of Bangor, Judge Pierce of Gorham, Bishop Burgess, Prof. Packard of Bowdoin College, Rev. David Cushman of Warren, and others. A paper by the President, Mr. Willis, was read, on "Prose and Garrony." An address was delivered by Hon. E. L. Hamlin, of a historical character, one from John A. Poor, Esq., on the Life and Character of its late Hon. Reed Williams, was expected, but deferred to a future occasion, in consequence of the inability of Mr. Poor to be present.

At the papers read are to be published in the Society's collections, we do not deem it necessary to speak of them more in detail. The meeting was one of unusual interest.—*Port. Press.*

Rhode Island is one of the first States to act upon the Congressional grant of public land in favor of an Agricultural College. A resolution transferring the benefits arising thence to Brown University, has passed both legislative branches, and the Secretary of State has gone to Washington, to secure the best 120,000 acres included in the grant.

THE WAR MUST BE FOUGHT OUT. General Reynolds said in New York on Friday that while he anticipated and wished no wanton peace, this war must be fought out. He was going to Rhode Island for a few weeks' repose, and then would return to active service in the field. This sentiment he repeated more than once.

THE VICKSBURG CUT-OFF. A special despatch from Cairo to the Chicago Tribune furnishes information from Vicksburg received by a captain of an Indiana regiment, which says—

Two brigades were engaged, when the Captain left, in opening the famous cut-off on which so much was heard last summer.

The river is bank full at Vicksburg, and high enough to rush through the canal at a fearful rate; all think that should the channel become large enough to admit the passage of boats the rebels for the present will be allowed to hold Vicksburg, while the Federals turn their attention to matters further South.

In his opinion it would take 150,000 men to storm the fortifications at Vicksburg. Our gun and mortar boats could shell the city from where they lie on the north side of the river head; but even if it were entirely destroyed, the fortifications which extend for miles back, would be as formidable as ever.

UNION FEELING IN SOUTH CAROLINA. The following is an extract from a letter just received by a gentleman in this city from the heart of South Carolina. The writer is perfectly reliable, and his testimony is certainly remarkable, considering the general impression engendered to the feeling in South Carolina. The letter was dated Jan. 9:

"The progress of events has brought me in communication with a large number of men in this vicinity who are avowed Union men, and it is my belief now that there are more people here who await with longing and desire the battering down of Fort Sumter and the capture of our Southern cities, than there are who would like to see this Confederate despotism continue.

Russia and Prussia have been called despotic, but the Confederate States outdoes them both in that direction. The people are tired of the war, and now see the devilish designs of the leaders; but the power has now gone from them, and they can only be released by what our politicians call revolution," but which in real English is treachery. Power—power of the United States is the panacea. When the United States take and permanently occupy any portions of these States, there is no fear but they will find Union men enough to sustain them. What restraint the expression of their sentiments is the fear that the successful party of to-day may be the defeated party of to-morrow, and then the punishment sure to follow is terrible. This is the true state of the case, and thousands in the army as well as among the people wish their wars determined, but what temporizing till that occurs.

There is no hope for this country or civilization except in the absolute extermination of the race of men who govern these States. Thank God that process has begun and goes bravely on. In uttering these sentiments, I utter not merely my own convictions, but those of many of the wisest and best people of the South. The best men here rejoice in the war as the fire through which the country must have passed on its way to greatness. The institution of slavery has received its death blow, and only conditions have arisen a people in these States worthy of the name. With slavery will perish that class of men who claim to be the gentlemen of America but who are the type of all that is bad, with a servile admixture of virulous varmints. If they live physically they will perish as a power. Armies may fail but God goes onward, and whether He permits the rebellion or not to the end is the same, viz: the triumph of the sons of Plymouth Rock and the defeat of barbarism."

The New South, published at Port Royal, of the 24 h ult., says that so much of the special order from the War Department as dismissed Col. R. Rich of the Ninth Maine regiment from the service of the United States, has been suspended until further orders by the Secretary of War. In the meantime Lieut. Col. Bisbee has received from the Governor of Maine his commission as Colonel of the regiment. The action of the Government, however, being prior to that of the State, the latter is also suspended, and C.L. Rich will resume command of his regiment.

GREAT DEFALCATION IN THE MARINE BANK AT CHICAGO. The Chicago Tribune says intense excitement prevails in that city among the business and banking community, concerning an alleged deficiency of $600,000 in the Marine Bank of Chicago. The Tribune says:

The general facts of this fathomless imbroglio are that a defalcation of $600,000 occurred in 1860, while the President of the bank was in Europe, $617,000 of which is traced to a party high in office at post ion in the bank, and one who had the most ample means of knowing the exact financial resources of the institution—in fact, the ostensible manager of it.

About $60,000 rests on the shoulders of another party connected with the bank in a responsible but subordinate position, and some $15,000 went off with a teller who imitated his superiors in a measure proportionate to his station.

GEN. POPE IN THE PORTER COURT MARTIAL. A correspondent of the Cincinnati Commercial, who is in attendance upon the Porter Court Martial, speaks as follows of the appearance of Gen. Pope on the witness stand:

His cross examination has been a very severe ordeal, and he has stood fire well. After three months have elapsed, he is examined minutely as to the battles of the 29th and 30th of August, and the movements immediately preceding them. He was asked where his troops were on certain days and at certain hours; what was the condition of the roads; what the position of the enemy; at what hour he sent orders; at what time he thought his Generals should have received his orders; when they were ordered to make certain movements, and why and how long they were about it; what prevented this and that from being done; where was he at the end of that time, and what doing. His answers were given with readiness, accuracy and general consistency, and a manliness, too, that surprised those who expected to see him ruined on cross examination by the adroit, able and unrelenting counsel of the accused. It is only the friends of General Pope, that have clear understanding of what he was about in the battles that ended his career as commander of the army of Virginia, which he has consigned at unexpected by displayed, has, in a considerable degree, tempered the unchristian feeling toward him entertained in this quarter.

VERY SUSPICIOUS. Note to the enlargement of Fitz John Porter by every secession journal in the North, says an exchange, the reception tendered that officer, since his disgrace, by the New York City Government, is the most damaging. To be poised in the secession journals is *prima facie* evidence of spotless loyalty, not to be endowed by the "Forty Thieves" of New York City is proof stone as daylight.

The Advertiser says, the laws of the U. S. are published" in that paper "BY AUTHORITY." Rich thing. Or rather, papers in the State authorized to publish the U. S. laws, are the Bangor Whig and Courier and Journal. The Advertiser has no authority to publish them, and receives not a cent for its doing.—*Portland Press.*

Monday Evening, Feb. 2d.

Report of the Mayor, on Order of Jan 5th, request ng him to report the amounts for which he has drawn his orders in payment for the City Plan—Accepted.

Petition of Abby D. Cole, for allowance for damages to Nehemiah B. Cole, caused by defect in highway—it being alleged that the injuries received by said Cole caused his death. Referred to Joint Special Committee.

Order that the Mayor be and is hereby directed to petition the Legislature to so alter or change Chap 1, of the Laws of 1851, so as to give the City Council right to change the boundaries of its Wards, when in their opinion it is deemed just and necessary, without submitting the same to a vote of the legal voters of the City. Passed.

Petition of Sam'l Kellogg, for remuneration for damages to his person, caused by defect in highway. Referred to Committee on Accounts and Claims.

Petition of Jos W. Pickering and others, for the City Council to petition the Legislature for the passage of an Act giving the City Government power to clear the obstacles from the bed of Kenduskeag Stream, and to raise money for that purpose either by tax on all vessels or by assessment on the property which bounds said stream. Read and ordered on the following order directing the Mayor to petition as above, passed.

Report of the Joint Special Committee appointed to purchase a stand of colors for the Second Maine Regiment—Accepted.

Report of Committee on Accounts and Claims, with order for payment of the Bills—Report accepted, and order passed.

Report of committee on Public Schools on two Ordinances in relation to the Superintendent of Public Schools and Superintending School Committee—Accepted

An Ordinance in relation to the Public Schools and the duties of a School Committee and Superintendent—Laid on the table, and ordered to be printed in the daily papers.

☞ The members and visitors of Rescue Division 8 of T. are invited to attend the Socials at the Hall this evening. The refreshments will be served at an early hour.

SAD AND DISTRESSING DEATH. The wife of Mr. L. D. Files, of Gorham Me., died last week under circumstances both strange and sad. Mrs. Files for several weeks past has had a special religious interest, and after several days, apparently experienced a hope. The next day after her friends rejoiced in her conversion, she became perfectly insane, requiring three or four persons to hold her. After continuing thus for nearly two days she sank into a deep sleep, from which improved imperfectly to oregon her. She continued in this stupor for some days, when she died.

HARRIS COMBS, George H. French, under 18 years of age, enlisted in the Maine 7th—Judge Ware discharged him on the petition of his father.

☞ Messrs Rumery & Burnham of Jonesport have put up one thousand pounds of fresh beef in tins and, during the last two months, for the Navy Department.

A RACE. The Augusta Age and Republican Journal are trying to see which will first throw itself into the arms of secession. At present the Journal is a little ahead. The Age, however, is wallowing terribly to keep from being outdone.

DESTRUCTIVE FIRE IN BRIDGTON. We learn that a fire broke out in Bridgton Friday night, destroying the building known as McKenney's Hall, which was occupied by nine Irish families, Langley's stable was also destroyed. A fish house near the covered bridge and a stable back of the City Hall were also destroyed by fire the same night. All of these conflagrations are supposed to be the work of incendiaries.

BENJAMIN LONGWITH. Mr. Peter Pineo died in this city at the residence of his son-in-law, Mr. James Boyle, on the 24th inst., aged 76 years. He was born in the year 1785.

Mr. P. he ought to a family remarkable for longevity, as will be seen by the following memorandum of the ages at which his brothers and sisters died. Jonathan Pineo, the eldest son, was born in 1770, and died aged 90 years; Otis, born 1772, died aged 89; David, born 1774, died aged 90; George, born 1776 died in the East Indies, aged 89; Elizabeth, born 1778, died aged 80; Timothy, born 1780, died aged 78; Ester, born 1788, died aged 62; Cornelia, born 1792, died aged 72; Mary H., wife of Joseph Pineo of Machias, born 1798, died aged 69.

Daniel Pineo, Esq., the only survivor of the family, now, and for many years past a resident of Topsfield, in this county, was born in 1787, and is now 76 years of age; and a more hearty, rugged looking man, for his age, is not to be found in the State. Mr. Jonathan Pineo the father of this family, immigrated from Canada, about to Machias when he was about 18 years of age. He died at the residence of his son Otis, in Cooper, aged 75 years.—*Calais Adv.*

☞ One thousand packages of soiled postage stamps were received at the Portland post office for redemption, varying in amount from 50 cts. to $92. It might be worse.

Gen. ROBERTS. The Portland Press contains the following reply by a classmate of Col. Chas W. Roberts to an intimation previously made in that paper:

*Editors of the Press.*

GENTLEMEN: I notice in your issue of Saturday an item which does great injustice to this gallant officer, and which I cannot allow to pass the rounds of the press without correction. I have no authority for commending upon it except this: which an intimate acquaintance from boyhood, and a thorough knowledge of his private life and character, may certainly give to one who has enjoyed these privileges.

Col. Roberts, at the time of the breaking out of the rebellion, resided at Bangor, in the midst of a circle endeared to him by all the ties of nature and friendship, free from the necessity of seeking the army as a means of livelihood, an only son, and engaged in a lucrative business—he was appointed in the State Militia, as it then existed, as an officer with the lamented Lamson and the gallant Varney, his successor in the office of Colonel of 2d Maine Regiment.

From motives of pure patriotism, devoted attachment to the principles of the government and the preservation of the country, these three brave men, in command of the regiment with which they had long been connected, staked their lives and their honor upon the hazard of battle. Right well have they on many fields withstood the hosts of the enemy and defended their country from the assaults of its would be destroyers. Gen. Lamson, borne down by disease contracted in the service, has passed through the straight and narrow path to that home where the cares of the anxious and the invectives of the vindictive can never more disturb his repose. Col. Roberts, entering the service for a reenlistment, has continued to lead his regiment for nearly two years. The anxiety and exposures of his fatal mother have now been allowed that influences which a true and noble son could no longer withstand; he has resigned his commission to one whom he knows could and would faithfully discharge the duties of the office, and has retired to private life honored and beloved by all who know him. Col. Varney will yet let his deeds speak for Him.

Let no men attribute to Col. Charles W. Roberts of the 2d Maine, "the sin and folly of youthful ambition," as the cause of his resignation. His soul soars above such motives, and the fallen of the noble 2d Maine, who have at a times gone by followed where he led, would rise from their bloody graves to refute the foul imputation.

☞ Brig Lizzie Barnard of Calais, at New York, from Damarara reports, January 29, lat. 30-40, on. 73-35, in a heavy sea, rolled away head of fore and mainmasts.

SAD ACCIDENT. The Press says that Henry S Tricky of the 17th Maine Regiment, son of Henry Tricey, Esq., of Portland, met with a very serious accident at Finley hospital, Washington. While standing under a hanging lamp it dropped upon his head, breaking at the same time. The flames spread, and before extinguished, his head and hands were shockingly burned. A letter from Dr. Wolhaupter, of the hospita to the family, states that he is as comfortable as they could expect, and it is hoped his eyesight is not injured.

THE REBELS AND THEIR INTERCEPTED CORRESPONDENCE. The Richmond Examiner is on the rampage generally, and is particularly furious against Benjamin for writing his portion of the despatches intercepted not long since in the hands of Major Reid Sanders. Of that "pretty kettle of Confederate fish," it says:—

"It is to be regretted and is a subject of wonder, that this correspondence, when the vessel was taken, was not destroyed or sunk to the bottom of the sea.

As it is the enemy has been giving a full exposition of our affairs, and as much is has been said of information being given to the enemy by improper publications in the newspapers, this single flasp sh bearer of Mr. Benjamin has furnished to the Yankees an amount of contraband intelligence that could not be gained from all the newspapers in the South for the next fifty years.

It is also to be regretted that Mr. Benjamin, in his correspondence, should have indulged in such weak and offensive speculations relative to the Emperor of France. There was no occasion for it, and its only effect can be to offend and estrange the friendly interest the Emperor has evinced in the success of our cause.

The whole thing is an unfortunate affair, and the character of the information disclosed shows with what singular want of judgment the business of that department has been conducted."

ROBBERY OF FIRE ARMS. The gunsmith shop of C. V. Ramsdell, on East Market Square, was robbed Sunday morning, between 6 and 6 o'clock of about $200 in revolvers and bowie knives.—The entry was made by breaking a pane of glass reaching through and unbolting a shutter that covered only the lower half of the window, also then breaking one of the lower panes.

EXPERIMENT WITH A NEW SHELL. The Washington Republican describes an experiment made with Sa bird's new shell, which had extraordinary success. The target was constructed so as to represent a section of the English iron clad frigate Warrior. It was placed in a vertical position against the bank dug out of the hill-side for the purpose, and the shell was fired at short range from a one-hundred and fifty pound rifled Dahlgren gun, with fifteen pounds of powder. The shell passed entirely through the iron penetrated, to about midway of the wood and exploded, tearing the target as much as the small quantity of powder was capable of doing.

ALLOWANCE FOR SHRINKAGE. The Times tells of a hog raised by a man down in Knox, which weighed a trifle less than a ton. Unfortunately for the story, they weighed pung, hog, owner and all, and forgot to make any allowance. The animal has shrunk from the story fit rigidly.

JOHN B. GEORGE of Concord, N. H., has been nominated for Congress by the Democrats. He has signed an acceptance letter as long as the President's message. He reminds one of John Holmes' blue native character, who was like three peaks of gas in a half bushel bag.

A correspondent of the Portland Transcript at North Parsonfield, writes:

There is living in this village a family remarkable for the large size of its members. It consists of eight sons and two daughters. The united heights of the eight sons amounts to forty-eight feet and twelve inches. Five measure six feet each, one, five feet ten inches, one six feet one inch, and the seventh six feet three inches. The height of the two daughters I am unable to give exactly, but presume they are not less than five feet nine inches.

The vessel is left in command at Newbern, with adequate force for any emergency.

NEW YORK, 2d.

The Times states that the Senate committee on Finance will probably report several radical amendments to the House Treasury bill, viz:

To leave the date to which the Federal stock of nine hundred millions may run unlimited, except at the discretion of the Secretary of the Treasury, giving the Secretary power to negotiate for 40 or 50 year five per cent stock; or if he deems best a 5 or 10 year stock. In case of a large sacrifice below par value is necessary, to insure the money even to 10 per cent per annum.

The interest on the four hundred millions of three years six per cent. Treasury paper, is changed from gold to currency. The section authorizing the issue of three hundred millions of legal tenders to be withdrawn out. Other amendments are also to be proposed.

BALTIMORE, 2d.

The Richmond Whig of Saturday announces the capture of British brig propeller Princess Royal, Captain Lyness, while attempting to run the blockade off that coast. She was making her way in on Thursday morning before daylight, when she was suddenly surrounded and her officers compelled to run her on Long Island bosom, where she was captured.

She had a most valuable cargo, consisting of eight Whitworth guns, steam tug sea for gunboats, rifles, powder &c. The bulk of her freight was about 400 tons.

A party of English workmen, skilled in the manufacture of projectiles, was captured with the vessels. The pilot and one or two of the crew escaped in boats, and reached Charleston.

The Whig says information dispatches from Captain Maury to the rebel Government were saved by those persons.

WASHINGTON, 2d.

The committee on ways and means are now engaged in considering how the revenue can be increased. Some suppose additional taxes may be placed on luxuries in order to decrease the duty on paper.

The amendment to the Missouri Emancipation bill, as reported by Senator Harris from the judiciary committee, consists of the substitution of 12 for 18 months, as a limit to the time allowed for the adoption of the Emancipation act; a prohibition of pay for any slaves introduced into the State subsequent to the passage of this act, and an increase of from $15,000,000 to $20,000,000 appropriation, at an average of $300 instead of $200 for each slave.

Mr. Sherman's finance bill, as reported today from the committee on finance, is amended in several particulars. It prescribes that the capital stock of any banking association under this act, shall be, instead of $50,000 not less than $100,000; in all cities whose population is 10,000 persons. The entire circulation of notes under this act shall be $300,000,000 instead of $200,000,000, $150,000,000 of which shall be apportioned to the associations, not only in the States, but in the District of Columbia and in the Territories, according to the Representative population; and the remainder apportioned according to the resources and business of the several States and Territories. These associations are required to pay to the Comptroller of the currency semi-annually, one per cent of their circulation.

The following despatch was received by the Navy Department to-day.

"FORTRESS MONROE, Jan. 2d.

A bearer of despatches who left Port Royal Friday noon, says there is no truth in the report of the Monitor being disabled at Fort McAllister. Commander Worden lay under the enemy's fire for four hours, to try his vessel. The balls had no more effect upon her than so many hail stones.

Nothing had been heard of the capture of the Smith in Stone River, when the despatch messenger left."

NEW YORK, 2d.

The Memphis correspondent of the Chicago Tribune, under date of the 28th ult., has the following, given for what it is worth:

Van Dorn, with eight brigades, left Grenada last Saturday, and is moving toward Memphis. He must come by railroad to Collierville, and thence strike north.

There were 50,000 Confederates at Grenada on the day mentioned, consisting of cavalry, artillery and infantry.

We are expecting raids in all directions.

We have advices from Holly Springs to Sunday afternoon. There were two brigades of infantry there under Tighman and Whitefield. They are not stationed at Holly Springs, but are in and out at leasure.

Fifteen thousand rebels are reported fifteen miles south of the Charleston railroad, marching north.

EXPRESS MESSAGE, 1st.

The steamboat New York, which was to have left last night for City Point, has been detained until noon to-day to take up 120 rebel prisoners, who arrived this morning on the Baltimore boat from Fort McHenry.

At 1 o'clock this morning the 6th books and on Main street, Norfolk, conveying a number of buildings.

The rebels are now driven beyond the Blackwater, and so far as is known, all is quiet in that direction.

Col. Ludlow, U. S. Commissioner for exchange of prisoners, has just returned from City Point. He has made arrangements for the exchange of nothing prisoners, and is of opinion that Jeff Davis' retaliatory proposition to declare over all the U. S. officers to steamboats of the Rebel service, and treat as a piratical act the capture of the mails, will not be supported by the rebel Congress, which is now acting upon it. The result will be known in a few days. We now hold more officers than the rebels.

Col. Ludlow has earnestly protested against the rebels permitting the authorities of any State to apply the operation of the State laws to any war ordered officers or men in the service of the United States.

Richmond papers have been received here to Jan. 31. One of them says: It is impossible that the Florida could have been the vessel that sunk the U. S. gunboat Hatteras, as she did not leave Mobile until the night of the 18th inst., and the Hatteras was sunk on the 11th. We have reliable information that the vessel that did sink her was the British man-of-war Spit Fire. As the Captain indicated in his reply to the Yankee commander, it may be that Com. Wilkes has worn out British endurance by his extraordinary blockade at Nassau and other points, and that orders had been issued which resulted in this naval engagement.

At a meeting at Halifax Court House on Monday last, Hon. Thomas S. Flournoy was nominated a candidate for the next Governorship of Virginia.

CHATTANOOGA, Jan., 30th

It is reported that General Van Dorn has recaptured Holly Springs, with 100 prisoners and a quantity of army rations.

Appearances indicate an early renewal of the conflict before Vicksburg. Fifty thousand yankees are working on the canal opposite the city. Their intention is to float transports through when the river rises and land their troops below. The force of the enemy's fleet is 107 boats, containing 14 gunboats. There may be more arrivals of gunboats before the fight begins. The strength of the Yankee army will probably not reach 80,000.

On the 27th ult., a bombardment took place at Fort McAllister at the mouth of the Ogechee river, 15 miles south of the Savannah river. Only one iron-clad was engaged, and was forced to haul off, her turret being injured. Our solid shot broke into pieces as they struck her sides.

The Despatch says Reed Sanders was captured by being betrayed by the crew of his yacht As soon as they got out of Charleston harbor the crew tied him and steered for the fleet, and delivered him to the Yankees. This accounts for his despatches not being sent to the bottom of the sea.

BOSTON, 2d.

The ovation or public reception of Gen. McClellan at the Tremont House to-day was a crowded and enthusiastic, popular demonstration.—Shortly before noon officers of the army, including many wounded, paid their respects to the General, in a body. Next the city government, headed by Maj. Lincoln, were introduced. In the meantime the hall and reception parlors of the hotel were rapidly being filled, and a crowd of from 7000 to 10,000 people gathered in the vicinity. A strong force of policemen preserved order, and so far as limited space in the hotel would admit, the crowd were allowed to pass through and shake the General's hand. Some ladies managed to enter with the crowd and several wounded soldiers. To the latter General McClellan addressed special words of sympathy. The reception closed at 3 o'clock, but in response to urgent demands from the mass who were unable to enter the building the General appeared for a few minutes on the portico of the hotel, and bowed his thanks. He was enthusiastically cheered.

Among the military officers present were Col. Day of the regular army, Major Montgomery, U. S. Interdicter; Captain Morris, of cavalry; Capt. McIvers, U. S. Quartermaster; Lieutenant Col. Comer, 44th New York; Col. Bowler, 46th do., and many others.

Father Taylor, the well known sailor preacher, said as he shook hands with the General:—"God bless the General who is the sole of a choice."

Occasionally a soldier would pass in the crowd and to such the General would speak a kindly word. One said—"40th Mass.; God bless you General." Another soldier got down on his knees and seized his hand. One officer from New York who was severely wounded at Fredericksburg, described the part taken by his regiment, to which the General said: "I am sorry you could not get through your last battle without getting hit after escaping in so many."

The officer answered—"I might, General if you had been there."

Many of the leading places of business in the city were closed, and the proprietors and employees alike joined in the demonstration of respect toward the General.

There was quite a large number present from distant parts of the State, and also from adjoining States. Among the latter was a delegation of about 100 citizens from Portland and vicinity.

To-morrow Gen. McClellan will visit Lawrence.

Special invitations from the people of Portland; also of Concord, N. H., have been received by Gen. McClellan to visit those cities.

PHILADELPHIA, 2d.

The refusal of Mr Bulkley was effected by his giving his pa ole that he would not print any more such articles as the Evening Journal entitled "Davis's Message."

SALT LAKE CITY, 1st.

On the morning of the 29th ult Colonel Connor had a desperate fight with the Indians on Bear River, Washington Territory, 142 miles north, and killed 224, and many supposed to have been drowned. We took 175 thieves, destroyed their lodges, provisions, &c. The fight lasted four hours. Our loss was 15 killed, and four officers and 181 men wounded.

SAN FRANCISCO, 2d.

Trade is very dull, and there is universal depression in every department of business.

The Senatorial corruption investigation will be recommenced in earnest to-morrow night.

The work on the Pacific Railroad is progressing vigorously from Sacramento, with every prospect of the first section being completed by next summer.

Judge Cranger had testified that green backs are not a legal tender.

INDIANAPOLIS, 2d.

The arrest of deserters in Morgan county having been completed, Colonel Carrington, commander of the federal forces here, sent a squadron of cavalry there on Saturday. They were met and fired upon by an armed mob. The cavalry charged, dispersed the mob, and captured the deserters and the citizens. Nobody was hurt.

Considerable excitement prevailed in Morgan and the adjacent counties.

BOSTON, 2d.

Yarmouth county, for seven years a supporter for the Boston Press, and well known as the correspondent of "Scout" of the Boston Journal, with Burnside's first expedition, died last night at his home in Santa Tamborin, Fla., of chronic [illegible] contracted while in the faithful discharge of his duty. For one so talented [illegible] cause, such an end is a sad [illegible]

ROANOKE ISLAND, N. C., 30th, } via FORTRESS MONROE, 1st. }

Major General Foster has again written to the General-in-Chief at Washington, bitterly complaining of the disclosure of military and naval movements in this department.

Elizabeth City, N. C., is now held by the Federal troops, as a military post. One company of the 1st North Carolina Union regiment, and 100 negroes, are doing garrison and picket duty at that point.

Jeff Davis had a conference last week with Governor Vance of North Carolina, upon the relations of this State with the Southern confederacy, meeting him for that purpose at Franklin Depot, Va., on the Blackwater.

Governor Vance plainly informed Davis that the State would insist upon the reserve and recall of an adequate force for the protection of the State from any further advance of the Federals.

This State has now 80,000 troops in the rebel service.

Many applications are being made for authority to raise native loyal troops. General Foster strongly approves of this.

NEW YORK, 2d.

The steamer Ocean Queen, from Aspinwall Jan. 26th, arrived to-night with $300,000 in treasure.

TRENTON, N. J., 2d.

Colonel J. Cook, reported to have been killed and robbed at Falmouth, has arrived in this city instead of having been killed and robbed. He returns with over $100,000 to be distributed to families of volunteers during the present week.

JEFFERSON CITY, Mo., 2d.

A joint session for election of U S Senator was held again to-day. Mr. Nesll's name was withdrawn. Six ballots were taken without result. The following is the last ballot—Brownlow, Phelps 47, Oliver 22, Breckinridge 20, Scattering 2.

NEW YORK, 2d.

The steamer City of Hartford was towed to Hunter's Point this morning.

PHILADELPHIA, 2d.

In the Court of Sessions to-day, Judge Allison took exceptions to the ruling of Judge Ludlow in the case of Mr Bellaun, proprietor of the Evening Journal, and ordered that the District Attorney should send the indictment based on the presentment of the Grand Jury, brought into Court on the 30th ult., until so directed by a majority of the court.

LATEST FROM ROSECRANS' ARMY. A gentleman just arrived from Rosecrans' army, which he left on the 21st inst., in order us that the army is in good condition, and about ready for further operations. It is not known when another forward movement will be made, but since the question of supplies has been settled by the continued rise of the Cumberland river, the opinion was quite general among the officers that an advance upon Tullahoma would take place very soon.

The health of the troops generally has greatly improved, and a remarkable degree of good spirits is manifested in all the camps. Many of the wounded in the recent battle are rapidly recovering, and returning to their regiments.

Our informant assures us that intense indignation exists throughout the army against the politicians at the North who are trying to get up divisions and disaffection at home.

—*Chicago Tribune.*

The House of Representatives of Indiana refused to receive Gov. Morton's annual message when it was delivered, and sent it back with all the accompanying documents. The House subsequen ly reconsidered its action, and asked for a re-delivery of the message, but the Governor says he has done his duty, and has nothing further to communicate.

THE GUNBOAT WINONA SAFE. It has been stated, on the authority of advices from New Orleans of Jan. 8th, that the gunboat Winona had been sunk by the south rebel battery at Port Hudson, La. We have a note from Paymaster Train, dated Jan. 10, which verses the report of the loss of that fine vessel, to be entirely unfounded. Under date of Jan. 10, he writes:—"We are well and progressing. Wrote upon a sunken log and came near upsetting, but went over. We are bound for Donaldsonville, where we hear there are some iron-clads. If we find them Gunn will soon send."

## Thirty-Seventh Congress:

### SECOND SESSION.

WASHINGTON, 2d

### Senate.

A communication was received from the Secretary of the Smithsonian Institute, transmitting a resolution that the Board regrets stating that George E Badger has not attended the meeting of the Board, and they understood that he was in the rebel army, and suggesting that he ought no longer to remain a member of the Board.

Mr. Richardson presented a petition from Madison Y. Johnson and asked it to be read.

Mr Grimes objected to the reading unless there was something especial in it, as it is contrary to the rules of the Senate.

Mr. Richardson said the petitioner had been arrested, imprisoned and discharged without any charge and cause. He moved for a committee to investigate into the facts, with power to send for persons and papers.

Mr. Sumner moved that the petitioner be referred to the Judiciary Committee.

Mr. Richardson read the petition, stating that the petioner was arrested last August, upon a telegram from the Secretary of War, without a warrant, and imprisoned, until the 13th of September, and no reason was ever assigned for the arrest or discharge. Mr. Richardson spoke in favor of the investigation.

Mr Rat mond said there was a feeling wide and deep in the section of the country he came from on this subject, which will lead to disastrous consequences if these arrests are still persisted in.

Mr Anthony said he understood that man could have been released at any time by taking the oath of allegiance.

Mr Richardson said the oath was offered him after he was arrested and imprisoned and the wrong done.

Mr Anthony understood that he refused to take it.

Mr Richardson said he did refuse.

Mr Anthony—Then I think the Senate has more important business before it than attending to requests of persons who refuse to take the oath of allegiance to the government. I have no sympathy for him. I move to lay the petition on the table.

Mr Bayard thought that there could be no propriety in tendering such an oath to a man arrested unlawfully. It was an insult as the arrest.

Mr Howe insisted that there was no insult in asking a man who had fallen under suspicion, to clear himself by pledging anew his faith and loyalty. The petition was tabled—

Yeas, Messrs Anthony, Arnold, Chandler, Clark, Fessenden, Foote, Foster, Grimes, Hale, Harlan, Hamlin, Hicks, Howard, Howe, King, Lane of Kansas, Morrill, Pomeroy, Sumner, Wade, Wilkinson, Wilson of Mass—22.

Nays. Bayard, Carlisle, Davis, Harding, Henderson, Kennedy, Latham, McDougal, Powell, Rice, Richardson, Saulsbury, Turpie, Wall, Willey and Wilson of Missouri—10.

Mr Harlan, from committee on judiciary, reported back bill to aid Missouri in emancipation.

Mr Wilson of Mass. offered a resolution directing the Paymaster General to inform the Senate what payments, if any, were made up to the 31st of Aug. 1862. If none, what reason.

Adopted.

The legislative and judiciary appropriation bill was taken up, the question being in regard to the appropriation for the Agricultural Department.

Mr Anthony moved to increase the amount to $110,000, of which $20,000 be expended by experiments to provide a substitute for cotton.

Mr Harlan moved to increase the amount to $130,000

Mr Harlan's amendment was rejected—yeas 9, nays 29.

Mr Anthony withdrew his former amendment, and offered another appropriating $20,000 for experiments in preparing hemp and flax as a substitute for cotton. Adopted—yeas 25, Nays 12.

Mr Lane of Kansas moved an amendment to appropriate $20,000 to encourage the culture of cotton. Rejected.

The amendment of the committee on finance making an appropriation for agricultural department of $65,000, instead of $150,000, as in House bill, was adopted.

The amendment striking out the section increasing the salary of the Assistant Secretary of State to $4,000 was adopted.

An amendment offered by Mr Powell repealing fishing bounties was rejected—Yeas 8, Nays 34.

The bill was then reported to the Senate.

An amendment appropriating $80,000 for the agricultural department was agreed to.

The amendment appropriating $3,000 to distribute cotton and tobacco seeds was agreed to.

The bill then passed.

Adjourned.

### House.

The House concurred in the Senate's amendments to the army appropriation bill, except the item of $500 0 for the survey of the Minnesota and Red Rivers of the North; with the view to improve the navigation of each, and connect them by a canal.

The House also concurred in the Senate's amendment to the consular and diplomat s appropriation bill.

The House passed Senate bill amendatory of the act providing for the collection of direct taxation in insurrectionary districts. It alters certain provisions for the sale of land in cases of non payment.

The House resumed the consideration of bill authorizing the employment of colored troops.

Mr. May of Maryland, denounced the bill.

Mr. Stevens replied, and in the course of his remarks, said that 300,000 men would soon be taken from the army by reason of expiration of their term of service, and in the present condition of the country, 50,000 volunteers could not be raised to fill this vacancy, and conscription was out of question. After further remarks the main question was ordered. The bill then passed—yeas 88, nays 55.

The bill as passed is as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

That the President be and is hereby authorized to arm and equip, and receive into the land and naval service of the United States, such a number of volunteers of African descent, as he deem equal to the suppression of the present rebellion, not such term of service he may prescribe, not exceeding five years; said volunteers to be organized according to the regulations of the branch of service in which they may be enlisted; to receive the same rations, clothing and equipments as other volunteers, and a monthly pay not to exceed that of the volunteers; to be officered by white or black persons, appointed and commissioned by the President, and to be governed by rules and articles of war, and such other regulations as may be prescribed by the President. Provided, That nothing herein contained, or in the rules or articles of war, shall be so construed as to authorize or permit any officer of African descent to be appointed to rank, or exercise military or naval authority over white officers and said are, or men in military or naval service of the United States. Nor shall any greater pay than ten dollars per month or the usual allowance of clothing and rations be allowed, or paid to privates or laborers of African descent, who are or may be in the military or naval service of the United States. Provided, further, That slaves of loyal citizens in the States exempt by the President's proclamation, of January 1, 1863, shall not be received in the armed service of the United States; and shall take no resulting offices opened in other States of Delaware, Maryland, Western Virginia, Kentucky, Tennessee, or Missouri, without the consent of the Governors of the several States having been first obtained.

The House then adjourned.

## $97 BOUNTY.

The Eighteenth Maine,

Col. DANIEL CHAPLIN,

A Regiment unsurpassed by any in the service, having been complete, by the War Department by being selected as the Regiment from our State to be transferred, as Heavy Artillery, and being designated as the

1st Maine Regiment of Heavy Artillery,

will be recruited to the maximum of Eighteen Hundred, rank and file.

The undersigned wants enlistments for Company D, Capt. V. CRESSEMAN, almost exclusively.

A Bangor Company.

The Regiment is now stationed in Forts and Batteries in the Northern Defences of Washington, in beautiful locations, and the Artillery arm of the service presents inducements to recruits above any other.

Bounty—$55 State, $25 United States, $13 Advance Pay, $2 Premium.

The Best Chance Yet Offered!

VOLUNTEERS WANTED for a full Company of One Hundred and Fifty able bodied men, for the above Regiment.

By an order from the War Department, the 18th Regiment being Volunteer, has been transferred to Heavy Artillery.

The duties and exposure of this service are much less than any other as Heavy Artillery perform no field duty, are quartered in permanent Barracks, and drilled without being loaded down with their knapsacks, &c., the duties always being performed in Forts.

It will be borne in mind that this is the only Maine Regiment of Heavy Artillery; that it is located near Washington, in a very healthy and pleasant spot.

All State and United States bounties paid. Pay, $13 to $21 per month, with Clothing and Rations.

# Ayer's SARSAPARILLA,

FOR THE SPEEDY CURE OF

Scrofula and Scrofulous Diseases

*From Henry Edes, a well known merchant of Oxford, Maine.*

"I have sold large quantities of your SARSAPARILLA, but never fit one before which failed of the intended effect and full satisfaction to those who took it. In fact as our people try it, they agree that it has been no medicine like it before in our community."

**Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.**

*From Hon. Robt. Stanton, Bristol, England.*

"I only do my duty & you and the public when I add my testimony to that you publish of the beneficial virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

*From Mrs. Jane E. Rice, a well known and much esteemed lady of Dansville, Ontario County, New York.*

"My daughter has suffered from a fair face with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

*From Charles F. Cogar, Esq., of the widely known Cogar, Murray & Co., manufacturers of ensamilla papers in Nashua, N. H.*

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, to whithout any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued as the sore began to any body, and I am without a symptom of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

**Erysipelas—General Debility—Purify the Blood.**

*From Dr. Robt. Smith, Houston St., New York.*

"DR. AYER: I seldom fail to remove *Scrofulous* and *Scorbutious Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas*, with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

*From J. S. Johnston, Esq., Fairmount, Ohio.*

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. As this is a public place, my case is known to every body in this community, and excites the wonder of all."

*From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.*

"I have used your SARSAPARILLA in my family, for general *debility*, and *for purifying the blood*, with very beneficial results, and feel confidence in recommending it to the afflicted."

**St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.**

*From Harvey Stellar, Esq., the able editor of the Tuskhannock Democrat, Pennsylvania.*

"One only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread as if they formed a loathsome and virulent scab, which covered his face, and actually blinded it for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the bottle of potash lotion, as you directed. The change began to show itself when we had given the first bottle, and was well when we had finished the second. The child's eyelashes which had come out, grew again and he is now as healthy and fair as any of her. The whole neighborhood predicted that the child must die."

**Syphilis and Mercurial Disease.**

*From Dr. Hiram Sleet, of St. Louis, Missouri.*

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

*From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.*

"DR. AYER: My dear Sir. I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with a more certainty of success, where a powerful alterative is required."

*Dr. Chas. S. Van Liew, of New Brunswick, N. J.*, had dreadful ulcers on his legs, caused by the abuse of mercury, or *mercurial disease*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

**Leucorrhœa, Whites, Female Weakness,**

are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. In some cases require, in addition to the SARSAPARILLA, the skilful application of local remedies.

*From the well-known and widely celebrated Dr. Jacob Mohrhill, of Cincinnati.*

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of irregularity, Leucorrhœa, internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and I have no doubt that the notorious action effect is properly added by both treatment."

*A lady, unwilling to allow the publication of her name, writes:*

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by four bottles of your SARSAPARILLA."

**Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease; Neuralgia,**

when caused by *Scrofula* in the system, are rapidly cured by this Expr. SARSAPARILLA.

## AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

## An Old Standard Remedy.

For Coughs, Colds, Consumption, and all Pulmonary Complaints, use Dr

### Vegetable Pulmonary Balsam,

which has maintained its high reputation for nearly FORTY YEARS, and is recommended by many of the most eminent physicians and gentlemen in the country, among whom are Rev. Joshua Leigh, Philadelphia; Rev. Dr. Lyman Beecher, New York, the late Prof Leonard Woods, Andover Theological Seminary; B. F. Thompson, formerly Secretary of State, Vt; Drs. Morrill, Perry, Abell, Parker, Barry, and many others by the Press, and by the largest and oldest dealers in drugs and medicines in the United States and Canada.

OPINIONS OF THE TRADE.—We know of no medicine which has deservedly sustained so high a reputation for so long a term of years, or which more rarely disappoints the reasonable expectations of those who use it."

[Signed by many of the oldest and most respectable druggists in the United States.]

Extracts from Letters received from Physicians:

"I with confidence recommend it as superior to any other preparation for the above complaints."

"It has a superiority over every kind of medicine used, and has been used for lung complaints with wonderful success."—"I am satisfied it is a valuable medicine."—"It is a safe, convenient, and very efficacious medicine."—"To my knowledge, it has never disappointed the reasonable expectations of those who have used it."—"I confidently recommend it as in all complaints of the chest, as equal, if not superior, to any other medicine with my knowledge."—"Of all the pectoral remedies I have for coughs, I am satisfied yours is the best and hope it will be better known and more generally used."—"I have prescribed your balsam, and regard it as the most valuable and effective remedy within my knowledge."

Extract of a letter just received from a gentleman ordering some of the balsam

"Markesan, Green Lake Co., Wisconsin, Dec. 2, 1862. Messrs. Reed, Cutler & Co.—Gentlemen: for some twenty years I have used your Vegetable Pulmonary Balsam in my family, and can do particularly for myself. When I first used it, I was given up by physicians as past cure of Consumption. I obtained immediate help. I have always kept it since, and consider it, for the lungs, the best medicine I ever used. I have recommended it in several cases and in nearly every case it has proved beneficial. It cured one lady after the doctors had pronounced her incurable. Respectfully yours,

H. H. RIBBON."

Price—Small size, 25 cents; Large, $1. Be careful to get the genuine, which is prepared only by REED, CUTLER & CO., Boston, and sold by dealers generally. Dec.30—dawd&w3m

## H. H. EDDY,

SOLICITOR OF PATENTS,

*Late Agent of the U. S. Patent Office, Washington, (under the Act of 1857.)*

98 State Street, opposite Kilby Street,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to procure Patents in the United States, also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Has also purchased made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through its investors have advantages for securing Patents, of ascertaining the patentability of Inventions unsurpassed by, if not unsurpassed by, superior to, any which can be offered from elsewhere. The testimonials below given prove that none is *more successful* at the *Patent Office* than the subscriber; and as *success is the best proof of extensive and ability*, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON,

Commissioner of Patents.

"I have no hesitation in favoring inventors that they cannot employ a person more *competent* and *trustworthy*, and more capable of suiting their application in a form to secure to them as early and favorable consideration at the Patent Office.

THOMAS ELDER,

Late Commissioner of Patents.

"Mr. H. H. Eddy has made for me Telegraph applications, on all but one of which patents have been granted, and that is now pending. Such unexceptionable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOSEPH HENRY,

Secretary Smithsonian Institution.

During eight months, the subscriber, in connection with his late President, made 105 Patents, principally for inventions ORIGINATED IN THIS OFFICE, a FACT of which I am confident is not true, by the Commissioner of any other office.

Lowlers dawcowly&w

The peculiar taint or infection which we call Scrofula is in the constitution of [illegible] in the blood, which in that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial diseases, low living, disordered digestion from indigestible food, impure air, filth and filthy habits, depressing vices, and above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed it seems to be the fiat of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health, with that "life of the flesh" healthy, you cannot have scrofulous disease.

### Ayer's Sarsaparilla

is compounded from the most effectual botanical remedies that medical science has discovered for the alleviating distemper, and for the cure of the disorders it entails. That it is the superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is fully and publicly proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **Kings Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from** tubercolous deposits in the lungs, **White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cures may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be found the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and, its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its use you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, dangerous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out in any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by a manifold trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.
